Anthropology is a field of visionaries, makers and collaborators, taking a critical, creative and holistic approach to the study of humankind. We teach hands-on courses in archaeology and socio-cultural, applied, biological and forensic anthropology, reflecting our faculty members' research in the Americas, Europe, Africa, and Central and Southeast Asia. Through coursework, fieldwork and study-abroad experiences, you'll gain life-long learning skills that prepare you for success in cross-cultural understanding and communication, working for diverse organizations and tackling complex social issues in today's global world. Our students are employed in a range of areas such as public health, business, international development, museums and education.
