

University of Montana, Department of Anthropology

Program Information

Program Name	University of Montana, Department of Anthropology
General Description / Special Programs	The University of Montana Department of Anthropology provides a curriculum that will help students understand and appreciate the range of human cultures as well as the significance of biological evolution of the human condition. Through our undergraduate and graduate programs students not only achieve a broad cross-cultural education, but prepare to apply their anthropological knowledge in their chosen career paths. A minor, Bachelor of Arts, Master of Arts, and Doctor of Philosophy degrees are offered in anthropology, with options or specializations available at every level. For undergraduates, the B.A. can include an option in Archaeology, Cultural and Ethnic Diversity, Forensic Anthropology, Linguistics, or Medical Anthropology - or a general degree crafted to the interests of the student. Parallel missions to promote the student of human diversity and experience are advanced by the Linguistics Program, which is also housed in the Department. Additional offerings are certificates in Forensic Science and Historic Preservation; these certificates are interdisciplinary by nature, but are administered within the Anthropology Department.

Research Facilities	Extensive study collections of Northwest plains ethnological and archaeological materials, eHRAF, Northern Plains Ethnohistory Project, Salish linguistic studies, archaeology labs, ethnology lab, lexicography and computer linguistics lab, physical anthropology lab
Support Opportunities	Graduate: Teaching Assistant Ships, Conference Travel Support
Library Resources	Mike and Maureen Mansfield Library
Internships Available	
Internship Info	Varies Internships are available.
Internship Required	
Publications	

Collections	<p>Welcome to the University of Montana's Anthropological Collection Facility (UMACF). The facility houses collections of prehistoric and historic artifacts from archaeological sites across Montana and ethnographic collections from Northern Plains and Southwestern cultures accessioned for curation and use in teaching and/or research at the University of Montana. A primary mission of the UMACF is to create and facilitate an environment for research and learning. In order to support this primary goal, the facility will make its collections accessible to faculty, researchers, graduate students, culturally affiliated groups, and other qualified individuals. http://hs.umd.edu/anthropology/umacf/default.php</p>
Grants Or Funding	Varies.
Misc Information	
Phd Specializations	Cultural Heritage and Applied Anthropology
Certs Offered
