

PITNEY BOWES

Program Information

Program Name	PITNEY BOWES
General Description / Special Programs	Pitney Bowes is a \$4.8 billion international company, and a provider of integrated mail and document management systems, services and solutions. Advanced Concepts and Technology is the company's primary research and development arm, employing people with backgrounds in anthropology, engineering, design, and business. The group collaborates with the company's business units to develop new products, services, and technologies that meet user needs.
