

Northwestern University, Department of Anthropology

Program Information

Program Name	Northwestern University, Department of Anthropology
General Description / Special Programs	<p>A wide variety of individualized special programs are made possible by a close working relationship with other departments that complement such core specialties as: Urban and Political Anthropology, Social Change and Modernization, Evolution and Human Biology, Archaeology of Complex Societies, and Ecological Anthropology. Active linkages exist with departments of History, Religion, Linguistics, Sociology and Biological Sciences; and with the Schools of Education, Music, Speech (Performance Studies) and the Northwestern Medical School. There is also a close relationship with the Program of African Studies, Gender Studies Program, Latin American & Caribbean Studies Program, the Center for International and Comparative Studies, and The Field Museum, Chicago. All second-year graduate students participate in the undergraduate teaching program. The Northwestern Field Museum Research Collaboration in Anthropology: The Field Museum and Northwestern University offer a collaborative program of research and training. The program provides opportunities for faculty, graduate and undergraduate students to participate in field and collections research projects directed by Northwestern University and/or Field Museum anthropologists. Joint Programs exist in two areas; 1) the archaeology of complex society with a focus on Sub-Sahara Africa, the Middle East, Europe, South America, Mesoamerica, Midwestern and Southwestern US, East Asia and Oceania. And 2) through the Center for Cultural Understanding and Change, research on Chicago communities, community organizations and urban culture.</p>

Program Details

Degrees Offered	Anthropology PhD, MA, BA major
Highest Degree Offered	PhD
BA/BS Field Areas	<ul style="list-style-type: none"> • Anthropology • Archaeology • Biological Anthropology • Cultural Anthropology • Linguistic Anthropology
MA/MS Field Areas	<ul style="list-style-type: none"> • Anthropology
PhD Field Areas	<ul style="list-style-type: none"> • Anthropology • Archaeology • Biological Anthropology • Cultural Anthropology • Linguistic Anthropology
Phd Requirements	<p>The doctoral program is designed to enable students to spend a major part of their graduate work on their chosen specialties. Along with required coursework in each year of graduate study, first-year students prepare a "research problem statement" that formulates specific research questions as derived from theoretical debates in the literature. Second-year students complete a research paper based on original field/laboratory or library research that is suitable for publication. Third-year students prepare a formal dissertation proposal that is suitable for submission to an external funding agency. Students are also expected to defend their dissertation proposal before their dissertation committee. Instead of fixed language requirements, doctoral candidates follow a course of study in methods and techniques, archaeological or bioanthropological techniques, or some combination of these, as determined by individual research agendas. The dissertation and an oral defense complete the PhD requirements.</p>
Other Field Areas	Joint PhD/MPH available
Support Opportunities	Graduate: Graduate School Fellowship competition (deadline 12/31); continuing students: Teaching Assistantships; low-interest university loan program; faculty research projects
Internships Available	
Internship Required	
Certs Offered
