

Program Information

Program Name	University of Michigan, Department of Anthropology
General Description / Special Programs	<p>The Michigan Anthropology Department PhD Program is a dynamic intellectual community formed by faculty and students in a mutual quest to understand the human condition in all its variety, past and present. The questions we explore are many. Some have persisted through over a century of anthropological inquiry, some have been refined or altered as a result of anthropological work, and some have emerged recently along with changing world conditions and new intellectual debates.</p> <p>We know that you will find a lot to learn at Michigan and that you will make your own original contributions to anthropology — contributions that will be interesting and informative to your fellow anthropologists, faculty and students alike, as well as to yourselves — before you leave. We want your graduate experience to be an exciting adventure, and we will do our best to make it so.</p> <p>Area studies available include Near Eastern, South and Southeast Asian, Chinese, Japanese, Russian and East European, Latin American and Caribbean, Middle Eastern and North African, Afro-American and African Studies</p> <p>Joint area programs include Program in Evolution and Human Behavior, jointly with the Departments of Biology, Psychology and Psychiatry and the School of Natural Resources and the Environment. Joint PhD programs in Anthropology and History, and Social Work and Social Sciences.</p>

Phd Requirements	University of Michigan MA or its equivalent, one language with a substantial written literature about anthropology and anthropology related subjects, B+ grade average, preliminary examination to advance to doctoral candidacy; dissertation and oral examination for PhD
Research Facilities	Biological anthropology laboratories, Mischa Titiev Library, Linguistic anthropology laboratory, computer facilities available. The Museum of Anthropological Archaeology has collections on the archaeology of the Great Lakes Region and materials from Japan, China, Tibet, the Philippines and Latin America. Other areas include the archaeology of North America and collections of Archaeobiology (plants and animals). There are representative collections on the anthropology of Africa, Oceania, Europe and the Near East. The Museum of Art holds high-quality collections from New Guinea and West Africa.
Support Opportunities	Graduate: Admitted graduate students are offered a funding package that provides for five years of continuous funding contingent on satisfactory progress. The first year is full fellowship from a variety of funding sources including the College of LSA and Rackham Graduate School and includes tuition and stipend for the academic year and health and dental insurance for 12 months. Second and third years are typically funded by Graduate Student Instructorships for fall and winter terms with health and dental insurance for 12 months. Fourth year and beyond students often secure prestigious external or departmental fellowships for research, field work and dissertation writing. The Museum of Anthropology also offers some Graduate Student Research Assistant positions each term upon application to the Director of the Museum of Anthropology.
Library Resources	Mischa Titiev Library was established in 1976 and is housed in the Department of Anthropology. It has a basic collection of anthropology books in all the subdisciplines.
