

Beloit College, Department of Anthropology

Program Information

Program Name	Beloit College, Department of Anthropology
General Description / Special Programs	The Anthropology Department at Beloit College was created in 1893 when Frank G. Logan founded the Logan Museum of Anthropology—the world's largest undergraduate anthropology teaching and research museum. The department continues to foster undergraduate research experiences, which includes decolonizing the discipline through our curriculum. Faculty field and museum research projects in the Caribbean, East and Southeast Asia, Europe and the American Midwest regularly involve Beloit students. Anthropology majors are strongly encouraged to study off-campus abroad for at least one semester and develop fluency in other languages. Many students combine their anthropology major with an interdisciplinary minor such as museum studies, modern languages, or area studies. An anthropology minor is also available.

BA/ BS Requirements	Beloit College requires students who major in anthropology to have a firm grounding in three subdisciplines. Our mid-level courses emphasize theory and method in order for junior and senior students to "do" anthropology. Also required are electives of interest and a capstone course. Students hoping to attend graduate school are encouraged to write a senior thesis. Depending on specific interest, a program is designed for each student to take courses in related disciplines. Students are encouraged to study relevant foreign language(s).
