

# Bennington College, Social Science Program

## Program Information

Program Name	Bennington College, Social Science Program
General Description / Special Programs	Bennington students in anthropology, politics, psychology, and other social sciences develop the tools to write history, delve into the human psyche, and more deeply understand states, societies, and cultures. Working closely with faculty, you develop your own precise questions and observations, with an emphasis on gathering evidence, constructing arguments, and presenting your ideas with clarity.
